

Setting up our rental models is quick and hassle-free, ensuring a prompt response to your safety requirements. When you receive our showers, they are work-ready and fully equipped to address your emergency shower needs without any delays.

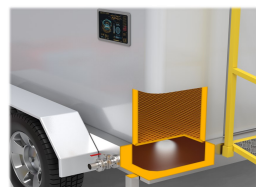

Industrial Emergency Showers

Mahikan
Energy
Services Ltd.

MAHIKAN 
ENERGY SERVICES

The MES-400 self-Contained emergency shower boasts a full containment sump and is certified to meet the stringent ANSI Z358.1 2014 standards, ensuring optimal safety and compliance.

What We Do

Even after 25 years+ of manufacturing customized units, we still think a little differently than most companies. We like to think outside of the box, and create niche products and services for our clients.

Rentals, Manufacturing, and Sales

Our specialty is Industrial and Remote Safety Services, Manufacturing and Rentals.

- **Emergency Showers & Eyewash**
 - Inspections
 - Certification
 - Refurbishment & Repair
 - Training

Remote Operations

Our **Emergency Showers** are designed to be effortlessly transported while fully loaded with water.

This unique feature offers our clients immediate advantages in terms of **logistics** and **finances**.
